Summary

BTech 3rd Year Computer Science student with hands-on experience in software development, AI, IoT, and blockchain, building systems like health kiosks, steganalysis tools, Google Chrome extensions, and voting platforms.

Skills

Programming: Python, Java, C, JavaScript

Web Development: HTML, CSS, JavaScript, Node.js, Express.js

IoT & Embedded: ESP8266, ESP32, Raspberry Pi, Arduino

Database & Cloud: Firebase, MySQL, MongoDB, Google Sheets API

AI / ML: OpenCV (Basic), TensorFlow (Basic)

DevOps & Deployment (Basics): Docker, CI/CD pipelines, Vercel, Render

Experience

Web Developer, Vibezarurihai

- Active Web Developer contributing to project development

Projects

Steganographic Content Detector

Aug 2025 – present

A deep learning-based system that identifies hidden data in images by analyzing statistical noise residuals using SRM filters and CNNs. Features a decoupled Flask backend and a modern web frontend.

- Training ML model on over 300,000+ images
- Provides forensic analysts with real-time likelihood scores and threat classifications

AI-Based Smart Health Kiosk for Rural Areas

Dec 2024

An AI-powered health kiosk that measures vitals such as temperature, SpO2, and heart rate using a Raspberry Pi, uploading data to a Supabase database for remote doctor access.

- Includes standby and offline modes
- Developed a web portal for doctors to review vitals and prescribe medicines

Phish-Shield

March 2026

Chrome extension built at NIT Hamirpur hackathon that detects phishing sites in real time using a 3-layer pipeline of heuristics, WHOIS intelligence, and Gemini AI.

- A risk scoring engine (0–100) flagging new domains, missing HTTPS, suspicious URLs, and brand spoofing detection.
- Blocked clipboard actions on high-risk sites to prevent credential and OTP leakage

Hackathons and Achievements

- Ethical hacking certificate from NPTEL
- Completed a 24-hour hackathon at IPEC and built a blockchain invoicing system

Education

Dr. A.P.J. Abdul Kalam Technical University, BTech in Computer Science

Aug 2023 – Aug 2027
